Investigating Quality of Urban Life: Theory, Methods, and Empirical Research: 45 (Social Indicators Research Series)

Investigating Quality of Urban Life: Theory, Methods, and Empirical Research: 45 (Social Indicators Research Series)
The study of quality of urban life involves both an objective approach to analysis using spatially aggregated secondary data and a subjective approach using unit record survey data whereby people provide subjective evaluations of QOL domains. This book provides a comprehensive overview of theoretical perspectives on QOUL and methodological approaches to research design to investigate QOUL and measure QOL dimensions. It incorporates empirical investigations into QOUL in a range of cities across the world.
