Lab tech Fiona's day is ruined when her supervisor Matt explains that she'll have to work the entire weekend to make up for a failed experiment. Things go from bad to worse for her when the pesky Matt spills an experimental genetic formula known as Masculinarix on her as he's trying to flirt with her. The truly astounding results, however, give Fiona ideas of her own as she plots her revenge and teaches Matt a lesson he won't ever forget.

This story is 5300 words long and features a lab researcher named Fiona who is accidentally exposed to an experimental drug that gives her super strength and a massive penis, and her annoying supervisor Matt, who quickly becomes a target of her frustrations, work-related and otherwise.
