The Healing Crystals First Aid Manual: A Practical A to Z of Common Ailments and Illnesses and How They Can Be Best Treated with Crystal Therapy Michael Gienger
From acne and cataracts to sprains and vomiting, this reference lists more than 100 medical conditions and describes the physical symptoms, psychological ramifications, and correct healing gemstones for each. The most effective form of the gem is specified—a polished pocket stone rather than a necklace, for example—and in some cases more than one kind of crystal is described to be effective. A comprehensive appendix with color photos of all prescribed gemstones, a guide to assembling basic home crystal kits, and a bibliography are included.
