Water Reuse for Irrigation: Agriculture, Landscapes, and Turf Grass

Water Reuse for Irrigation: Agriculture, Landscapes, and Turf Grass
This compilation provides guidelines that facilitate the successful planning and operation of water reuse projects. Offering the information, analysis, and proven experience for agricultural and landscape irrigation, it bridges the gap between fundamental science and relatively uncharted areas of economic, institutional, and liability issues. It delivers a synthesis of information recently emerging in both science and in the practice of irrigation with reclaimed water. The book compiles guidelines, recommendations, and codes of best practices from around the world for all types of recycled water uses, and it examines recent concerns about adverse effects on plants, groundwater, and public health.
