Finding Your True Calling: The Handbook for People Who Still Don't Know What They Want to be When They Grow Up But Can't Wait to Find Out Valerie Young
Have You Found Your True Calling?
True Calling?
Yeah. True Calling.
The reason you're alive. Your personal mission in life. Your raison d'etre. Your True Calling.

If you don't have a clue what I'm talking about, take a couple seconds to complete this quick quiz: Are you doing EXACTLY the kind of work that makes you want to leap out of bed each morning excited to begin a new day? Does your work satisfy a need deep within to express yourself, your talents, your values, your unique and precious gifts? Does your work allow for a balanced life – one that leaves time for family and friends, for exercise or hobbies, for you? Are you doing what you love and loving what you do?

If you answered "yes" to all of these questions, congratulations! There's a good chance that you have achieved what the Buddhist's call "Right Livelihood." If you haven't yet found the work you were meant to do, keep reading. You're about to find your true calling – and when you find that calling that is uniquely yours, your life will be transformed. Guaranteed. "The way to find out about your happiness," said renowned mythology scholar Joseph Campbell, "is to keep your mind on those moments when you feel most happy, when you are really happy – not excited, not just thrilled, but deeply happy." Read that paragraph again. It's awesome.

Now ask yourself how you feel each day as you get ready for work. It probably sounds something like this. Your alarm clock buzzes you awake. You drag yourself out of bed, dreading another day at a job that's high on stress and short on satisfaction. I guess what I'm asking you is this: Are You Truly Happy Working In A Career That's Fulfilling And Enjoyable? Because when you really love your work you greet the day like this: You don't need an alarm clock because you can't wait to get out of bed and dive into another workday where your work feels more like play. Maybe you think it's too late. Maybe you believe that you've somehow missed your True Calling and that… well… you're not getting any younger.

Nonsense. The 19th century writer George Eliot got it right when she said, "You're never too old to be what you might have been."
