James Ambrose, Patrick Tripeny

Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) James Ambrose, Patrick Tripeny
The bestselling structural design reference, fully updated and revised

Simplified Engineering for Architects and Builders is the go-to reference on structural design, giving architects and designers a concise introduction to the structures commonly used for typical buildings. The clear, accessible presentation is designed to give you the essential engineering information you need without getting bogged down in excess math, making this book an ideal reference for busy design professionals. This new 12th edition has been completely revised to reflect the latest standards and practices. The instructor site includes a complete suite of teaching resources, including an instructor's manual and a PowerPoint presentation.

Structural design is an essential component of the architect's repertoire, and engineering principles are at the foundation of every sound structure. You need to know the physics, but you don't necessarily need to know all of the math. This book gives you exactly what you need without losing you in a tangle of equations, so you can quickly grasp and apply the material.

- Understand fundamental concepts like forces, loading, and reactions
- Learn how to design for wood, steel, or concrete construction
- Study structural design standards and develop sound structural systems
- Determine the best possible solutions to difficult design challenges

The industry-leading reference for over 80 years, *Simplified Engineering for Architects and Builders* is the definitive guide to practical structural design.

From reader reviews:

Nathan Herr:

This Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) book is not really ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is actually information inside this book incredible fresh, you will get details which is getting deeper you actually read a lot of information you will get. This specific Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) without we understand teach the one who studying it become critical in thinking and analyzing. Don't end up being worry Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) can bring if you are and not make your tote space or bookshelves' grow to be full because you can have it in your lovely laptop even mobile phone. This Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) having great arrangement in word and also layout, so you will not experience uninterested in reading.

John Harrison:

Hey guys, do you really wants to finds a new book you just read? May be the book with the name Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) suitable to you? The actual book was written by popular writer in this era. The book untitled Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides)is a single of several books this everyone read now. This specific book was inspired many men and women in the world. When you read this book you will enter the new dimension that you ever know ahead of. The author explained their plan in the simple way, therefore all of people can easily to comprehend the core of this guide. This book will give you a large amount of information about this world now. In order to see the represented of the world in this book.

Alice Billups:

Spent a free time for you to be fun activity to accomplish! A lot of people spent their down time with their family, or their very own friends. Usually they performing activity like watching television, about to beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? May be reading a book might be option to fill your free of charge time/ holiday. The first thing that you'll ask may be what kinds of book that you should read. If you want to try out look for book, may be the publication untitled Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) can be good book to read. May be it can be best activity to you.

Mary Craine:

Would you one of the book lovers? If so, do you ever feeling doubt if you find yourself in the book store?

Try and pick one book that you never know the inside because don't assess book by its cover may doesn't work here is difficult job because you are scared that the inside maybe not as fantastic as in the outside appearance likes. Maybe you answer can be Simplified Engineering for Architects and Builders (Parker/Ambrose Series of Simplified Design Guides) why because the wonderful cover that make you consider in regards to the content will not disappoint anyone. The inside or content will be fantastic as the outside or perhaps cover. Your reading 6th sense will directly guide you to pick up this book.
