Air, Pollution Engineering Manual

Air & Waste Management Association

Air, Pollution Engineering Manual Air & Waste Management Association
Partially underwritten by the Environmental Protection Agency, this manual provides industry and government professionals with the guidelines needed to comply with recent air pollution standards and regulations. Leading experts in air pollution control describe control equipment used for gases and particulates including operation, design principles, cost-effectiveness, and performance record. The authors explain the different processes that generate air pollutants as well as the types of emissions covering most of the industries affected by the Clean Air Act.
