Lippincott's Manual of Psychiatric Nursing Care Plans Judith M. Schultz MS RN, Sheila L. Videbeck PhD RN

An outstanding resource for students and practicing nurses, the Ninth Edition of *Lippincott's Manual of Psychiatric Nursing Care Plans* contains 52 nursing care plans that address the most commonly encountered behaviors in psychiatric–mental health nursing. An excellent tool to introduce students to clinical psychiatric experience, the *Manual* demonstrates use of the nursing process in psychiatric nursing and gives suggestions for specific interventions—with rationale—to address particular behaviors, giving the student a sound basis on which to build clinical skills. Covering a range of problems and a variety of approaches, the care plans are meant to be adapted and individualized in planning nursing care for each client. The Ninth Edition has been thoroughly updated and includes new information on complementary and alternative medicine and using the internet; as well as new or expanded appendices on psychopharmacology; side effects of medications and related nursing interventions; and schizoid, histrionic, narcissistic, and avoidant personality disorders.
