Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series)

Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series)
Featuring international contributors from both industry and academia, Numerical Methods for Finance explores new and relevant numerical methods for the solution of practical problems in finance. It is one of the few books entirely devoted to numerical methods as applied to the financial field.

Presenting state-of-the-art methods in this area, the book first discusses the coherent risk measures theory and how it applies to practical risk management. It then proposes a new method for pricing high-dimensional American options, followed by a description of the negative inter-risk diversification effects between credit and market risk. After evaluating counterparty risk for interest rate payoffs, the text considers strategies and issues concerning defined contribution pension plans and participating life insurance contracts. It also develops a computationally efficient swaption pricing technology, extracts the underlying asset price distribution implied by option prices, and proposes a hybrid GARCH model as well as a new affine point process framework. In addition, the book examines performance-dependent options, variance reduction, Value at Risk (VaR), the differential evolution optimizer, and put-call-futures parity arbitrage opportunities.

Sponsored by DEPFA Bank, IDA Ireland, and Pioneer Investments, this concise and well-illustrated book equips practitioners with the necessary information to make important financial decisions.

From reader reviews:

Bonita Murray:

Here thing why this Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series) are different and dependable to be yours. First of all examining a book is good but it really depends in the content of it which is the content is as yummy as food or not. Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series) giving you information deeper including different ways, you can find any book out there but there is no guide that similar with Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series). It gives you thrill reading journey, its open up your own personal eyes about the thing which happened in the world which is probably can be happened around you. You can easily bring everywhere like in playground, café, or even in your approach home by train. If you are having difficulties in bringing the branded book maybe the form of Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series) in e-book can be your choice.

Stephen Hill:

Playing with family in a park, coming to see the coastal world or hanging out with friends is thing that usually you could have done when you have spare time, subsequently why you don't try thing that really opposite from that. One particular activity that make you not sense tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series), it is possible to enjoy both. It is great combination right, you still desire to miss it? What kind of hang-out type is it? Oh can happen its mind hangout men. What? Still don't have it, oh come on its called reading friends.

Elizabeth Pipkin:

In this time globalization it is important to someone to obtain information. The information will make someone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of references to get information example: internet, paper, book, and soon. You will see that now, a lot of publisher in which print many kinds of book. Often the book that recommended to you personally is Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series) this reserve consist a lot of the information in the condition of this world now. This kind of book was represented how does the world has grown up. The terminology styles that writer require to explain it is easy to understand. Typically the writer made some analysis when he makes this book. That's why this book ideal all of you.

James Fitzgibbons:

E-book is one of source of knowledge. We can add our information from it. Not only for students but additionally native or citizen have to have book to know the update information of year to be able to year. As we know those textbooks have many advantages. Beside all of us add our knowledge, also can bring us to

around the world. From the book Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series) we can take more advantage. Don't someone to be creative people? To become creative person must want to read a book. Simply choose the best book that suited with your aim. Don't become doubt to change your life with that book Numerical Methods for Finance (Chapman and Hall/CRC Financial Mathematics Series). You can more attractive than now.
