The focus of this book is on managing the difference TQ makes in human resources. Whereas the traditional nature and scope of responsibility for most human resource professionals has been that of staff support geared to administrative compliance, the total quality approach offered here reveals the keys to developing and sustaining commitment to world-class performance. These keys include strategic input and continual improvement of the human resource system to enhance internal and external customer satisfaction both now and in the future. The full meaning of these new TQ role demands is explored in light of the driving forces reshaping the HR environment into the 21st Century.
In addition, this book offers practitioner assessment instruments, practical TQ tools, and specific implementation steps to take in order to make the TQ difference in managing human resources domestically and globally.
