School Mathematics Study Group Studies in Mathematics Volume XVIII puzzle problems and game project Final Report 1968 Edition Dilworth et al
This is a self-contained manual for use by teachers in preparation for classroom presentations. One of the goals of the report is to show how games and puzzles can provide effective means for developing mathematical understanding and skills. The authors indicate that this type of activity is well adapted for discovery teaching techniques. The report is organized into two main parts. The first part contains experimental units that were tested in the classroom. The second part consists of the report of a project to compile a list of games and puzzles appropriate for use in the mathematics classroom.
