Illuminati 666, Book 2

William Josiah Sutton

Illuminati 666, Book 2 William Josiah Sutton
Is there such a thing as The Illuminati? Does this fit into our sophisticated age? Some ridicule the very idea, but in these chapters a fascinating portrayal is uncovered. Are such words as Illuminism or The Illuminati new to you? That is not strange, for today these expressions are unknown to millions, even among many well educated people. This results from the plan to keep that giant Conspiracy under cover, to always remain secret. "The great strength of our order lies in its concealment," declared Adam Weishaupt, founder of the new order in 1776. "Let it never appear in any place in its own name, but always covered by another name and another occupation." (Quoted in Robison's Proofs of a Conspiracy, p. 195.) This world-wide cover-up has been so cleverly conducted through the centuries, even millenniums, that most folk are entirely unaware of its existence. This Conspiracy goes back to the time of Nimrod, that evil genius who began that ancient apostasy in Mesopotamia. While every Sunday School teacher knows something about the Tower of Babel, yet few realize that the principles and philosophies of that ancient movement are right now playing a tremendous role in both our political and religious life. The Illuminati 666, we bring together many startling, almost unbelievable, facts.
