The Collected Poems (Harper Colophon Books) Sylvia Plath
"By the time of her death, on 11 February 1963, Sylvia Plath had written a large bulk of poetry. To my knowledge, she never scrapped any of her poetic efforts. With one or two exceptions, she brought every piece she worked on to some final form acceptable to her, rejecting at most the odd verse, or a false head or a false tail. Her attitude to her verse was artisan-like: if she couldn't get a table of of the material, she was quite happy to get a chair, or even a toy. The end product for her was not so much a successful poem, as something that had temporarily exhausted her ingenuity. So this book contains not merely what verse she saved, but-after 1956-all she wrote...The aim of the present complete edition, which contains a numbered sequence of the 244 poems written after 1956 together with a further 50 poems chosen from her pre-1956 work, is to bring Sylvia Plath's poetry together in one volume, including the various uncollected and unpublished pieces, and to set everything in as true a chronological order as is possible, so that the whole progress and achievement of this unusual poet will become accessible to readers.
