**How Come?** Kathy Wollard

"Taken from Kathy Wollard's popular column, "How Come?" (seen for the past six years in *Newsday* and recently syndicated nationally through the *Los Angeles Times*), *How Come?* explains why cats can survive high falls (because of the way their bodies can act like a "parachute") and how black holes absorb light (intense gravity—if the Earth had the same density as a black hole, it would have to be compressed to the size of a marble!). Now you can know it all.
