Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library)

Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library)

Temporal and spatiotemporal data form an inherent fabric of the society as we are faced with streams of data coming from numerous sensors, data feeds, recordings associated with numerous areas of application embracing physical and human-generated phenomena (environmental data, financial markets, Internet activities, etc.). A quest for a thorough analysis, interpretation, modeling and prediction of time series comes with an ongoing challenge for developing models that are both accurate and user-friendly (interpretable).

The volume is aimed to exploit the conceptual and algorithmic framework of Computational Intelligence (CI) to form a cohesive and comprehensive environment for building models of time series. The contributions covered in the volume are fully reflective of the wealth of the CI technologies by bringing together ideas, algorithms, and numeric studies, which convincingly demonstrate their relevance, maturity and visible usefulness. It reflects upon the truly remarkable diversity of methodological and algorithmic approaches and case studies.

This volume is aimed at a broad audience of researchers and practitioners engaged in various branches of operations research, management, social sciences, engineering, and economics. Owing to the nature of the material being covered and a way it has been arranged, it establishes a comprehensive and timely picture of the ongoing pursuits in the area and fosters further developments.

From reader reviews:

Ronald Moffatt:

The feeling that you get from Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library) will be the more deep you searching the information that hide inside words the more you get thinking about reading it. It does not mean that this book is hard to recognise but Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library) giving you joy feeling of reading. The article author conveys their point in specific way that can be understood by simply anyone who read that because the author of this publication is well-known enough. This specific book also makes your personal vocabulary increase well. That makes it easy to understand then can go along, both in printed or e-book style are available. We propose you for having this particular Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library) instantly.

Jessica Rodriguez:

This book untitled Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library) to be one of several books that will best seller in this year, that is because when you read this book you can get a lot of benefit in it. You will easily to buy this kind of book in the book retailer or you can order it through online. The publisher of the book sells the e-book too. It makes you easier to read this book, since you can read this book in your Cell phone. So there is no reason to you to past this publication from your list.

Willie Adams:

The reserve untitled Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library) is the guide that recommended to you to study. You can see the quality of the reserve content that will be shown to anyone. The language that author use to explained their ideas are easily to understand. The article author was did a lot of study when write the book, and so the information that they share for your requirements is absolutely accurate. You also could get the e-book of Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library) from the publisher to make you far more enjoy free time.

Catharine Rosol:

The book with title Time Series Analysis, Modeling and Applications: A Computational Intelligence Perspective (Intelligent Systems Reference Library) includes a lot of information that you can find out it. You can get a lot of profit after read this book. This specific book exist new understanding the information that exist in this reserve represented the condition of the world now. That is important to yo7u to understand how the improvement of the world. That book will bring you in new era of the syndication. You can read the e-book with your smart phone, so you can read it anywhere you want.
